Cloud Architecture

# Document Version: 00
Date: 19 April, 2024

Objectives

- To establish scalable and resilient cloud infrastructure
- To enhance operational efficiency and drive innovation
- To deliver unparalleled customer experiences across all touchpoints.
- To integrate diverse systems and data sources seamlessly
- To enable real-time insights and decision-making.

Problem statement

- How can we revolutionize cloud architecture to empower seamless scalability and innovation with a cutting-edge cloud infrastructure?
